RAZOWSKI J. 1995. The Catalogue of the species of *Tortricidae* (Lepidoptera). Part III: Afrotropical *Chlidanotinae* and *Tortricinae*: *Phricanthini*, *Cochylini* and *Tortricini*, Acta zool. cracov., **38**(2): 183-193.

Abstract. This paper is a continuation of the series of catalogues of the species of *Tortricidae*. Original references, type localities and some distribution data are provided.

Key words: Catalogue, *Tortricidae*, *Chlidanotinae*, *Phricanthini*, *Cochylini*, *Tortricini*.

Józef RAZOWSKI, Institute of Systematics and Evolution of Animals, Polish Academy of Sciences, Sławkowska 17, 31-016 Kraków, Poland.

I. INTRODUCTION

The present part of the "Catalogue of the species of *Tortricidae*" comprises the Afrotropical *Chlidanotinae* and the first three tribes of *Tortricinae*. *Chlidanotinae* are represented by *Hilarographini* (5 species) and *Chlidanotini* (one described species only). Of about 250 described species of *Tortricinae*, placed until now in five tribes, three tribes comprising 77 species (one of *Phricanthini*, 25 of *Cochylini* and 51 of *Tortricini*) are listed in this catalogue. The tribe *Cnephasiini* was listed by Diakonoff (1960) but the taxa given in his paper belong most probably in the *Archipini*.

Data on the taxa are arranged as in preceding parts of this series. In addition, the most important papers illustrating the genitalia are listed for those species which were originally described without figures of the genitalia. Original references to the genera are also given if they were revised in the series "The genera of *Tortricidae*" (RAZOWSKI, 1987).

A c k n o w l e d g m e n t s. My thanks are due to Mr. Kevin R. TUCK, the Natural History Museum, London for linguistic corrections of this introduction.

Abbreviations used:

d. – district

distr. – distribution

n.d. – no data (not available)

orig.design. – original designation

prov. – province

subs.inc.spell. – subsequent incorrect spelling

t.l. – type locality or terra typica

II. SYSTEMATIC PART

*Chlidanotinae**Chlidanotini**Trymalitis* MEYRICK, 1905

Trymalitis MEYRICK, 1905, J. Bombay nat. Hist. Soc., **16**: 590. Type-species: *Trymalitis margaritas* MEYRICK, 1905, designated by monotypy. – *Trymaltis* MEYRICK, 1911, Proc. Linn. Soc. N.S.W., **36**: 294, subs. inc. spell. – *Trimalitis* DIAKONOFF, 1960, Verh. K. Ned. Akad. Wet., Afd. Nat., **53**(2): 206 – subs. inc. spell.
