STEBNICKA Z. 1999. *Flechtmanniella*, a new name for *Flechtmannia* STEBNICKA, 1999 (Coleoptera: Scarabaeoidea: Aphodiinae: Eupariini). Acta zool. cracov., 42: 287.

Abstract. A new name *Flechtmanniella* is provided for *Flechtmannia* STEBNICKA, 1999, a junior homonym.

Key words: Coleoptera, Scarabaeoidea, Aphodiinae, Eupariini, new name.

Zdzisława STEBNICKA, Institute of Systematics and Evolution of Animals, Polish Academy of Sciences, Sławkowska 17, 31-016 Kraków, Poland.

It was brought to my attention by John K. PAGE, Production Section Chief of Zoological Record, England, that the name *Flechtmannia* STEBNICKA, 1999 is a junior homonym of a genus of arachnid. The genus *Flechtmannia* was erected by STEBNICKA (1999: 286) for *Euparia laticollis* PETROVITZ, 1973 from Brazil. This name was previously used by KIEFER (1979) for a genus of Acari (Prostigmata: Eriophyoidea).

Therefore I propose to replace *Flechtmannia* STEBNICKA with *Flechtmanniella* STEBNICKA, **new name**. The rejected junior homonym has no known available synonym. The only described species becomes *Flechtmanniella laticollis* (PETROVITZ) **new combination**.
