KRZEMIŃSKI W. 2004. *Yalea*, a replacement generic name for *Yala* KRZEMIŃSKI, 1992 (Diptera: Proqramptomomyiidae). *Acta zoologica cracoviensia*, 47(3-4): 229.

Abstract. A replacement name, *Yalea* **n. nov.** is provided for the preoccupied name *Yala* Krzemiński, 1992 in the family Proqramptomomyiidae (Diptera).

Key words: Diptera, Proqramptomomyiidae, *Yala*, *Yalea*, replacement name

Wiesław KRZEMIŃSKI, Institute of Systematics and Evolution of Animals, Polish Academy of Sciences, Sławkowska 17; 31-049 Kraków, Poland.

Yala KRZEMIŃSKI, 1992 is a fossil genus described within the Diptera, Proqramptomomyiidae from the Upper Triassic of North America. The name appeared recently to be preoccupied by the genus *Yala* CHU 1979 in Geometridae (Lepidoptera), with the type species *Yala pyricola* CHU, 1979 by original designation (*Acta entomologica sinica* 22 : 75-76). Therefore, I propose to replace *Yala* KRZEMIŃSKI with *Yalea* KRZEMIŃSKI, **new name**. The type species of this proqramptomomyiid genus becomes *Yalea argentata* (KRZEMIŃSKI, 1992), **new combination**.

Order: Diptera

Family: Proqramptomomyiidae

Genus: *Yalea* n. nov.

syn. *Yala* KRZEMIŃSKI, 1992

Type-species: *Yala argentata* KRZEMIŃSKI, 1992: *Mitteilungen der Schweizerischen Entomologischen Gesellschaft*, 65 (1-2): 44, by original designation.

A c k n o w l e d g e m e n t s. I am very grateful to Neal EVENHUIS (Bishop Museum, Honolulu) for drawing my attention to this name being preoccupied and to Abdullah HASBENLI and Hüseyin ÖZDIKMEN who found this case of preoccupied name and kindly refrained themselves from publishing this information.
